

Hi everyone,

I want to try to put the pieces all together in this one email about what I see happening all around us daily on the news concerning the economy. Most of these terms and definitions come right from the network news itself, with a little from other sources. Also, this will be a bit of a review concerning the "set-up" which I recently wrote to you about.

What I left out of that email was that I actually believe that the Bush/Clinton cabal is still lurking in the shadows, waiting to pounce once again into action when the time is right. They may have not even left the scene completely, since the election. Remember all of those mysterious "Executive Orders" Bush signed...??? (Directive 51, etc). We obviously still have a major Clinton in the administration, and these same players are probably still pulling the strings on Barry. I believe that they will once again try to reclaim power in DC through an "Operation Blackjack" type event, soon. The date on the series was given as June 22 2009 for the nuclear weapons to be detonated.

This past Friday, and Monday, the stock market was once again in free-fall mode. it bounced back up a bit today, but the general trend is still DOWN DOWN DOWN. Robert Gibbs was trotted out on Friday to try to stem the tide by claiming that the administration was for a "privately owned" banking system, getting away from recent statements about nationalizing the banking industry. We all know that is a weak attempt at a cover-up to their TRUE intentions. The federal government already controls Freddie and Fannie May, and has handed out TRILLIONS of pretend dollars to prop up the failing system. They might as well own the whole thing already. Nothing is going to stop the downward spiral of fraudulent debt the thieving banksters have created with their gambling in derivatives over the past few years. One analyst calls it a financial BLACK HOLE that cannot ever be satisfied.

What we are witnessing today is just the warm-up act to the real threat that is to appear on the scene very soon now. We are being softened up for our ultimate "capitulation", as the traders like to say.

This is the "pre-game" we are now seeing, the set-up, as I call it. These are the days just prior to the fulfillment of Revelation 13 and the end of days.

Here are the final few steps in the plan, and of course my OWN speculation:

1. Nationalization (government purchase of banks etc)
2. Monetization (printing money to pay debt)
3. Force Majeure (elimination of all debts)

We have or are ALREADY experiencing the first two steps. Strike Three will be Force Majeure.

Below are images and video to confirm this observation. Please be sure to watch the youtube video with the Congressman on C-SPAN. Notice the female caller in PANIC at the beginning. He is talking about the theft of \$550 BILLION from our treasury before it was noticed and stopped. This occurred PRIOR to the first TARP rescue package was announced and is generally UNKNOWN to the American public that it even happened. It was indeed a financial terrorist attack on this nation.

Also, notice the frame from "Operation Blackjack" part 3 where it mentions the "forgiveness of our debts". That is the definition of Force Majeure, and it is on it's way. I see no other possible way out of this financial disaster confronting this ENTIRE planet.

Then, notice how Donald Trump slides a reference of NUCLEAR WEAPONS into his interview with Letterman a few days ago. I have already sent that video out, and am trying to get all of this into one email for future reference, and for you to share with as many others as possible. You simply MUST warn your friends and family. If you know anyone who would like to receive my email alerts, please have them forward me their address, but please do not send me your email lists, as I WILL NOT spam anyone. This is not about me getting more and more people on an email list... this is about WARNING as many as possible through True Bread.

Here are the images and videos:

Operation Blackjack: (Force Majeure) image from part 3-

notice it says:

"Our debts have been forgiven, and our Country has reopened for business"

(ie- Force Majeure has been declared.)
