

Hi folks....

I try in the time I have to educate myself on what I think is happening in this nation, and to us, the citizens of this country. However, I cannot do everything myself, and I sometimes rely upon those of like mind to help me in the efforts of True Bread. The following link is just such an example. This link to a youtube video was sent to me by a good friend who has joined our small gang here in True Bread, from out on the west coast. I feel that it is very important for all of you to understand that all of what I learn here is just NOT all coming from me, but from other independent people. I feel that this video is a MUST VIEW video, and will only tell you that it is just one more clear and present PROOF of what we have been saying here.

The time has come, and is here NOW for all of us to prepare and be ready for what is certainly on its way. We here in my family are taking the relevant and proper steps of acquiring what we feel that we need to have on hand to make it possible for us to survive as long as we can given any disaster or false-flag scenario that we here feel is on the way... More on that to follow soon...

Here is the link. Please view this when you have a chance:
